

Maheshwar Awale

Pune, India — +91-9321825853 — maheshwarawale12@gmail.com — linkedin.com/in/maheshwar-a-02b6b6163

Summary

Software Development Engineer with 3+ years of experience in Java, Spring Boot, Microservices, and Elasticsearch. Built back-end systems for 500M+ users on Jio, optimized APIs to <100ms latency, and migrated cloud infrastructure (Azure → GCP). Skilled in Spring Cloud, Redis, Docker, Kubernetes, and CI/CD pipelines. Passionate about scalable distributed systems, cloud-native development, and fault-tolerant architectures.

Technical Skills

- **Languages:** Java, SQL, NoSQL, HTML, CSS, JavaScript, React
- **Frameworks/Tools:** Spring Boot, Spring Cloud, Spring Framework, JPA/Hibernate, Microservices, Redis, Docker, Kubernetes, REST APIs, Git, Maven, GitLab CI/CD, Tomcat
- **Databases:** SQL, Oracle, MS-SQL, Elasticsearch
- **Cloud/Monitoring:** GCP, Azure, AWS (familiar), Prometheus, Grafana
- **Concepts:** OOPS, Collections, Exception Handling, System Design, Distributed Systems, Scalability, Security, Performance Tuning, Multithreading, JDBC, Circuit Breaker, JUnit, Mockito, Agile (Scrum), J2EE

Experience

Software Development Engineer 1

Sept 2022 – Present

Reliance Jio, Navi Mumbai, India

- Scaled back-end services for 500M+ users, optimizing APIs to <100ms at 1000+ QPS, improving engagement by 40%.
- Led cloud migration (Azure → GCP), achieving 30% faster performance and 20% cost savings.
- Designed and deployed microservices with Spring Boot and Spring Cloud, ensuring fault tolerance and scalability.
- Used **Redis** caching in JioNews mini-app to store frequently accessed feeds, reducing DB load.
- Built interactive modules (Live TV, My City) for Jio News using reactive programming and OAuth2/JWT.
- Automated CI/CD pipelines with Jenkins and GitLab CI/CD, reducing release cycles.
- Automated configuration management with Kubernetes ConfigMaps, reducing manual deployment effort by 40%.

Projects

- **Enhanced MyJio App Search:** Designed distributed back-end (Spring Boot + ELK + Docker + Kubernetes) handling 1000+ QPS with <100ms latency, improving search relevance.
- **Search API for Jio Financial App:** Built Elasticsearch-based APIs with Spring WebClient, OAuth2/JWT, and CI/CD pipelines on GCP, optimized for 1000+ QPS.

Certifications

- Spring Boot Essential Training
- Java 8+ Essential Training
- GCP for Enterprise
- Elasticsearch Essential Training
- Prompt Engineering with ChatGPT

Education

B.E. in Information Technology

2018 – 2022

SKNCOE, Pune University
